¹ The Administrative/Technical Support Fee and the Proficiency Testing Fee are assessed annually on a laboratory's anniversary, regardless of the laboratory's current accreditation status.

² The Initial Application Fee is paid one time per laboratory only.

³ An on-site assessment is conducted before initial accreditation, during the first renewal year, and every two years thereafter. Pay this fee only when you are notified that an on-site assessment is scheduled to be performed.

NVLAP FEE SCHEDULE (Effective 10/1/03) - continued

- ⁴ Due to the variability of the Calibration program from one laboratory to another, initial application is a two-stage process. See Calibration Laboratories Fee Calculation Worksheet for explanation and instructions.
- ⁵ Contact NVLAP for determination of the On-Site Assessment Fee.
- ⁶ The Proficiency Testing Fee for Calibration Laboratories will be billed at cost at the time the test is conducted.
- ⁷ If more than one field of accreditation is selected, there is a \$2,600 discount to the Administrative/Technical Support Fee for each additional field. Call NVLAP at 301-975-4016 for details.
- ⁸ The Proficiency Testing Fee is calculated on the Dosimeter and Test Category Selection Worksheets contained in the Dosimetry Program-Specific Application package. The Proficiency Testing Fee is due every other year. Pay this fee only when you are notified that proficiency testing is scheduled to be performed.
- ⁹ To qualify for the combined Bulk/Airborne rate, a laboratory must have the same Authorized Representative, renewal date, and on-site assessment schedule for both Bulk and Airborne. Otherwise, an additional \$1,000.00 Administrative/Technical Support Fee and separate On-Site Assessment Fees will be assessed.
- ¹⁰ Proficiency tests for Asbestos Fiber Analysis, Fasteners and Metals, Construction, Paints, and Paper are conducted through outside testing services, and fees are paid by laboratories directly to the provider of service.
- ¹¹ Proficiency testing for the Chemical Calibration Programs is conducted by the NIST Analytical Chemistry Division. Fees due are billed by and paid directly to the NIST/ACD.
